Learn what we’re learning from the historic no-till plots at OARDC about soil carbon, soil physical properties and more. Glover Triplett, who established the plots with David Van Doren in 1962, will share stories with other Ohio no-till pioneers. We’ll spend 2 hours at the plots.

After lunch, 3 concurrent sessions will include: managing cover crops (interseeding, planting green); cover crops for erosion control and forage; no-till corn success; and measuring soil health.

Speakers include: Jim Hershey, Jerry Grigar, Jim Hoorman, Alan Sundermeier, Bill Richards, Bill Haddad, Steve Culman, Warren Dick, Rory Lewandowski, Rafiq Islam, David Brandt, Ryan Haden, and several others.
